

Expression of interest

Hyderabad Growth Corridor Ltd , a 100% Government of A.P owned entity created for implementation of Outer Ring Road project around Hyderabad city, proposed to take up central lighting on Main Carriageway and street lighting on both Service Roads in the stretch from Gachibowli to Shamshabad. Various proposals of HPSV lamps, LED lighting are under consideration for the lighting arrangements.

The services of electrical engineer having expertise in the field of street lighting are required in finalizing the specifications, type of luminaire to be provided, height and spacing of the poles, preparation of technical specifications and bidding documents, etc. The scope of the work and other details are indicated in the website www.hmda.gov.in & www.hyderabadringroad.com. Interested consultants/individuals having relevant experience may submit their proposals financial and the details of experience to the Managing Director, HGCL HMDA Complex, Tarnaka, Secunderabad, on or before 16.08.2010.

Scope of work of the Consultants (Electrical)

1. Examining various options for providing LED / other luminaires for providing lighting on 8-lane ORR & Service Roads duly considering the required lux levels, initial cost, maintenance and its reliability as demonstrated by a number of Agencies based on the inputs provided by HGCL and to make necessary recommendations.
2. Providing detailed specification for LED fixtures / other luminaire and all components of street lighting and designs as per the highway standards.
3. Preparation of BOQ for 22 Km stretch of ORR from Gachibowli to Shamshabad for both main carriageway and service roads.
4. Preparation of Technical Specifications, tender documents with special conditions to suit the performance guarantee for the luminaire after erection and commissioning, for a period of 10 years.
5. Assistance in evaluation of Bid documents received from the Agencies.
6. Preparation of time frame for completion of the project and on site supervision during execution.
7. The consultant inputs are required continuously till the erection and commissioning of the street lights, which may be around 6 months period. After wards the consultants inputs may be needed intermittently during the defects liability period of 2 years.

It is requested to submit financial quote for providing the services of expert along with CV of the personnel and remuneration payable for rendering the above services on or before 16.08.2010, in sealed cover to the following address.
